

ACADEMIC FREEDOM STATEMENT

Brooks Institute is committed to protecting and encouraging the principles of academic freedom. Academic freedom provides the foundation for scholarship, teaching and learning, and reflects the Institutes fundamental mission to promote collaboration, critical thinking, and creativity. Essential elements for the intellectual vitality of a college include: the ability to exchange ideas and concepts freely, to explore and disseminate new knowledge, and to speak openly as a professional and as a private citizen. All are encouraged to promote a learning environment that provides opportunities for the free exchange of ideas between faculty, staff and students.

Programmatic Student Learning Outcomes/Mission

Graduates of the MS in Scientific and Technological Imaging are prepared to meet the challenges of communicating science, technology, and innovation, through visual media. Graduates will leverage skills in project management to ensure the effective production, integration, archiving and distribution of media content in support of scientific research, education, museum collections and research documentation, preservation, and communication.

Program Description

The Master of Science in Scientific and Technological Imaging (MSSTI) is a four-semester, 36-credit, low residency master's program. The program provides an advanced course of study that requires students to explore and effectively apply scientific and technical media imaging methods to meet the challenges of communicating scientific knowledge, technological innovation, research findings, museum collections, and related content to a diverse global audience. The program stresses project and production management skills to ensure the effective production, integration, archiving and distribution of media content.

Learning Outcomes:

Upon completion of the program, students should be able to:

- Apply critical thinking skills to analyze and create effective visual media to educate, inform, and communicate to a global audience (Visual Literacy, Problem Solver)
- Create media content using diverse scientific and technical imaging methods and tools to communicate, interpret and document subject matter (Adept, Global)
- Effectively manage media assets to ensure efficient workflow, distribution, sharing and stable archiving (Adept)
- Identify, articulate and apply ethical principals in relation to visual and verbal media representations, and business/professional practices (Ethics)
- Communicate clearly and effectively, both orally and in writing, in a professional environment (Communication)
- Apply an understanding of project and business management to successfully organize and complete projects as an individual and in collaborative teams (Collaboration)

Course Title	DAM, Libraries and Image Distribution
Course Code	MSS518

Credit Hours	2 Semester

Term Start/End Date

Course Description

The science and museum collections world demands the highest level of Digital Asset Management (DAM) capabilities. Students will review case studies and various methods of applying DAM in different work environments. Students will take a problem-solving approach to engineering solutions for media management, media formatting, distribution and archiving. The challenges of rapidly changing media technologies and distribution channels will be addressed.

Learning Objectives

Upon completion of this course the student should be able to:

1. Apply advanced Digital Asset Management (DAM) methods to effectively manage media, including appropriate use of metadata and archiving
 2. Properly format media for a variety of distribution methods in order to share content with a diverse, global audience
 3. Design DAM and distribution systems that accomplish the communication objectives of educational institutions, research centers, museums and other collections
-

Required Textbook(s) and/or Media:

Krogh, Peter. *The DAM Book: Digital Asset Management for Photographers*. O'Reilly Media: 2013.

Russotti, Patricia and Anderson, Richard. *Digital Photography Best Practices and Workflow Handbook: A Guide to Staying Ahead of the Workflow Curve*. Focal Press: 2009. ISBN: 978-0240810959

Course Outline

Week 1: Course introduction; Online discussion

Week 2: Online research and/or multimedia presentation; Online discussion; project production

Week 3: Online research and/or multimedia presentation; Online discussion; project production

Week 4: Online research and/or multimedia presentation; Online discussion; project production

Week 5: Online research and/or multimedia presentation; Online discussion; project production

Week 6: Online research and/or multimedia presentation; Online discussion; project production

Week 7: Online research and/or multimedia presentation; Online discussion; project production

Week 8: Online research and/or multimedia presentation; Online discussion; project production

Week 9: Online research and/or multimedia presentation; Online discussion; project production

Week 10: Online research and/or multimedia presentation; Online discussion; project production

Week 11: Online research and/or multimedia presentation; Online discussion; project production

Course Syllabus

Week 12: Online research and/or multimedia presentation; Online discussion; project production

Week 13: Online research and/or multimedia presentation; Online discussion; project production

Week 14: Online research and/or multimedia presentation; Online discussion; project production

Week 15: Online research and/or multimedia presentation; Online discussion; project production

GENERAL ASSESSMENT CRITERIA AND METHODS OF EVALUATING STUDENTS

Letter grades (A, A-, B+, B, etc.)

The student's overall grade for this class is derived from a combination of online instructional activities, class participation (discussion forum postings), assignments, quizzes and exams, projects, and final project/final exam. Only the instructor can authorize exceptions to class policies, deadlines or grades. Students must confirm (in writing) any exceptions to class policies or deadlines with the instructor. Class work is weighted as follows:

Grade Weighting		Grading Scales		
Course Area	%	Percent	Letter	Numeric
Course Area	%	93–100	A	4.00
Participation	10	90–92	A-	3.70
Project Portfolio	85	87–89	B+	3.30
Media Management	5	83–86	B	3.00
		80–82	B-	2.70
		77–79	C+	2.30
		73–76	C	2.00
		70–72	C-	1.70
		67–69	D+	1.30
		60–66	D	1.00
Total	100%	0–59	F	0.00

Revision Date June 26, 2014

Author Scott Miles

Course Syllabus

DEFINITIONS OF CRITERIA USED IN GRADING

Outstanding = A	Outstanding work, showing insight and demonstrating excellence in skill and craft. Work goes well beyond what is required
Superior = A-, B+	Superior work, shows clear understanding and thorough demonstration of skill and craft
Good = B, B-	Competent work, clear understanding, often showing creativity and good use of skills
Satisfactory = C+, C, C-	Adequate understanding, inconsistent demonstration of skills, some elements missing or problems with priorities
Unsatisfactory = D, F	Lacks understanding, inadequate amount of time and effort demonstrated, many missing elements, inconsistent participation, skill and craftsmanship not demonstrated

ACADEMIC INTEGRITY STATEMENT

Brooks Institute expects all students to exemplify integrity in all academic work. Brooks Institute will not permit students to engage in the following dishonest acts:

- **Cheating** – Cheating includes, but is not limited to, the following: using unauthorized notes, study aids, electronic or other devices not authorized by the instructor. Using or borrowing information from another person, or submitting someone else’s work as one’s own work including images and reels. Using work previously submitted for another purpose, without the instructor’s permission, is prohibited. Duplicated use of copyrighted material in violation of federal copyright laws will not be tolerated.
- **Plagiarism** – Submitting as one’s own work, in whole or in part, words, ideas, art, designs, text, drawings, images, reels, etc. that were produced by another person without attributing that person as the rightful source of the work. Plagiarism includes, but is not limited to: using words, word passages, pictures, etc. without acknowledgement; paraphrasing ideas without quotation marks or without citing the source; submitting work that resembles someone else’s beyond what would be considered a tolerable coincidence; ideas, conclusions, information found on a student paper which the student cannot explain, amplify or demonstrate knowledge upon questioning.
- **Accessory to Dishonesty** – Knowingly and willfully supplying material or information to another person for the purpose of using the material or information improperly.
- **Falsification or Alteration of Records and Official Documents** - The following are examples of acts under this category, but the list is not exhaustive: altering academic records, forging a signature or authorization on an academic document, or falsifying information on official documents, grade reports, or any other document designed to attest to compliance with school regulation or to exempt from compliance.
- **Software Code of Ethics** – Unauthorized duplication of copyrighted computer software violates the law and is contrary to our organization’s standards of conduct. Brooks Institute disapproves of such copying and recognizes the following principles as a basis for preventing its occurrence:
 - Brooks Institute will neither engage in nor tolerate the making or using of unauthorized software copies under any circumstances.
 - Brooks Institute will only use legally acquired software on our computers.
 - Brooks Institute will comply with all license or purchase terms regulating the use of any software we acquire or use.
 - Brooks Institute will enforce strong internal controls to prevent the making or using of unauthorized software copies, including effective measures to verify compliance with these standards and appropriate disciplinary measure for violation of these standards.

Course Syllabus

CREDIT ASCRIPTION ADDENDUM

MSS518 DAM, Libraries and Image Distribution - 2 semester credit hours

Type: 100% Online Delivery

Credit Ascription – The amount of hours spent to participate in the course and complete projects, and the assignment alignment with Course Learning Objectives

Course Learning Objectives:

1. Apply advanced Digital Asset Management (DAM) methods to effectively manage media, including appropriate use of metadata and archiving
2. Properly format media for a variety of distribution methods in order to share content with a diverse, global audience
3. Design DAM and distribution systems that accomplish the communication objectives of educational institutions, research centers, museums and other collections

The following indicates the **minimum** number of hours per assignment:

Week	Assignment Title	Hours	Assignment Objectives
1	• Synchronous online meeting	1.5	1, 2, 3
	• Discussion Forum participation	1.5	1, 2, 3
	• Assignment Production	2	1, 2, 3
2	• Online multimedia presentation and/or research	1.5	1, 2, 3
	• Discussion Forum participation	1.5	1, 2, 3
	• Assignment Production	2	1, 2, 3
3	• Online multimedia presentation and/or research	1.5	1, 2, 3
	• Discussion Forum participation	1.5	1, 2, 3
	• Assignment Production	2	1, 2, 3
4	• Online multimedia presentation and/or research	1.5	1, 2, 3
	• Discussion Forum participation	1.5	1, 2, 3
	• Assignment Production	2	1, 2, 3
5	• Online multimedia presentation and/or research	1.5	1, 2, 3
	• Discussion Forum participation	1.5	1, 2, 3
	• Assignment Production	2	1, 2, 3
6	• Online multimedia presentation and/or research	1.5	1, 2, 3
	• Discussion Forum participation	1.5	1, 2, 3
	• Assignment Production	2	1, 2, 3
7	• Online multimedia presentation and/or research	1.5	1, 2, 3
	• Discussion Forum participation	1.5	1, 2, 3
